1) **CESTUI QUE TRUST**: (pronounced seta kay) common term in New Zealand and Australia (Controlled by the Vatican under the Authority of the Pope).

2) **STRAWMAN**: common term in United States of America or Canada

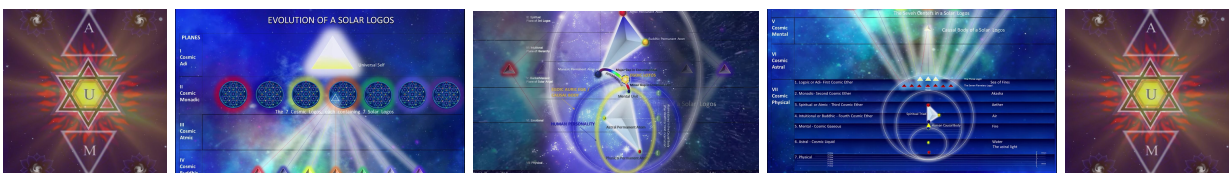
The legal fiction is a construct on paper, an estate in trust. When you are in receipt of a bill, or a summons in court, it is always in capital letters, similar to tomb stones in grave yards. Capital letters signify death. They are writing to dead fiction. A legal fiction was created when someone informed the government that there was a new vessel in town, based upon your birth.

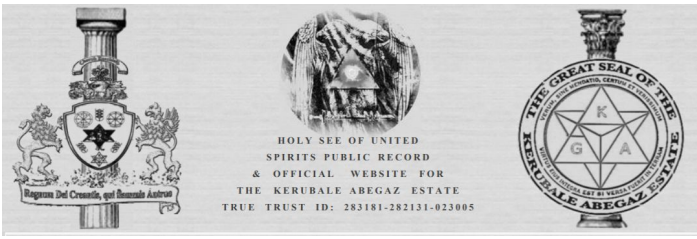
These are legal fictions created/owned by the Government in which created it. We are considered a legal fiction, a concept expressed by a name or a symbol. The legal person has no consciousness,**ENS LEGIS**, a name/word written on paper. This traces back to 1666 in London, an Independent City State, just like the Vatican (Holy See) and Washington, DC (District of Columbia).

The legal fiction is a construct on paper, an estate in trust. When you are in receipt of a bill, or a summons in court, it is always in capital letters, similar to tomb stones in grave yards. Capital letters signify death. They are writing to dead fiction. A legal fiction was created when someone informed the government that there was a new vessel in town, based upon your birth.

The only way to reclaim your dead entity (strawman) that the Crown created, is to become the executor and then collapse the Cestui Que Vie trust and forgive yourself of your debts and then remove yourself from the admiralty law that holds you in custody.

We have accepted the claim to accept the summons, yet **ONLY** the dead can be summoned. There is an obligation to accept any liability which has been created. We are operating in Admiralty. A not guilty plea or **ANY** plea admits jurisdiction. The strawman, aka legal fiction is always guilty. Barristers and solicitors make a living out of creating controversy. By creating a controversy you become liable for the case.





Honour and Dishonour

To remain in honour you have to accept a claim and settle (discharge) it. Then you add conditions, ie. "*I accept on proof of claim and proof of loss*". This gives the liability back to them. The legal fiction is always guilty. Only in the High Court, can the real man or woman appear. Games are played on courts, hence the name 'court'. It is a game with actors (acting on acts). It has to be treated as a game and just business. Court room dramas are misinformation.

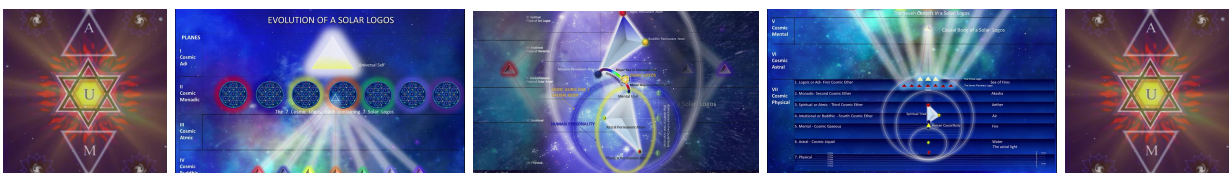
Connecting the dots of the Strawman

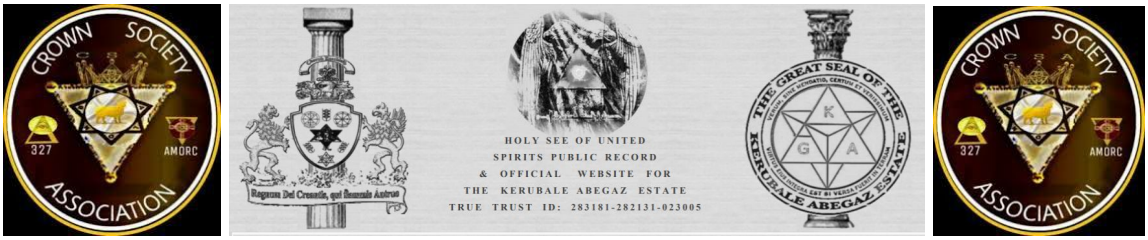
The strawman, or the Cestui Que Vie Trust, is the oldest commerce platform in the world. The Royal Crown of Britain instituted this structure through Parliament to substitute the rights of men and women, declaring them dead/lost at sea. The state, in this case, London, UK, essentially took custody of the people and their property and placed it into a trust; taking on the role of trustee, holding title of all said people and property. This is until a living man or woman comes back to reclaim those titles.

This fundamental foundation is important to understand, as it is the anchor that underwrites commerce in the United States, and the world for that matter. The strawman system is the cornerstone of our economy, and the more one understands how it works, the more effective the approach in cashing in on the system that has used us to generate currency and profit.

The US Debt Clock (Real-time economic status of the US National Debt)
http://www.usdebtclock.org

The US Debt Clock is a very important tool to be aware of. Why? Well, since we are all collateralized debt instruments, and the national debt is directly related to how currency and our money supply is supported. The debt portfolio that is represented by the national debt is directly related to the strawman account. Each strawman or Cestui Que Vie trust is connected to the overall debt profile of the country. This provides a good point of reference in the calculation of the national balance sheet.





Keep in mind, any debt created by the United States of America (the parent legal fiction of Great Britain) is income generated for the corporation. Each strawman account makes up a portion of the the overall trust. The more debt that is created, the more currency is created to support the legal fiction. This is the cornerstone of commerce to the federal corporation we call the USA.

Supporting Information on the commerce platform: The Strawman Demystified

Below, there are links to information describing the history of how commerce was created, and how the strawman was created. Understanding the breakdown of the history helps to learn the process in which the strawman platform was created globally, and how to use this information to your advantage to claim title to your property, and collapse the strawman.

SETTLING THE CESTUI QUE VIE TRUST: The Strawman Balance Sheet
--Public vs. Private Account--

This is probably the most important part of the entire strawman platform. Settling the Cestui Que Vie Trust is where you can collapse the strawman by offsetting the public account, and shift over to the private account. This is the balance sheet that every person in the strawman system (London, Australia, and the District of Columbia) has to account for all debts and liabilities assigned to their legal fiction.

As we learned, once you are able to collapse the strawman, you then will be able to have a private account setup, allowing you to bypass the strawman forever, However, one must be careful on not spending the principle of federal reserve notes, which will add more debt to the strawman, starting the process all over again.

Essentially, you will direct the US Treasury Department to offset your liabilities to close your public account, and then have them create your private account. Still in the process of identifying the total value of my strawman, so I can determine how many trust accounts I have on record. Once I find this out, I will share with the group.

To truly understand the strawman trust in the USA, it's important to know the history of HJR (House Joint Resolution) 192, and the UCC (State Property), which essentially created the strawman in the US. HJR 192 was the legislation that was enacted by Congress and signed into law under FDR to remove the gold standard. This is also how the Federal Reserve Act was created, which was to control the money supply, essentially devaluing the currency to create debt service. This created the strawman, as each dollar generated is debt anchored by the legal fiction of the corporation.

Something that is also worth mentioning, the UCC, or the Uniform Commercial Code, known as State Property was also created through HJR 192. This is important, as this is the legal structure that allows a given individual or corporate to engage in contracts. Without the UCC, the strawman in the United States could not be enforced, as an entity could not engage or enforce a contract. This is how rights and property of the individual is conveyed to the legal fiction. With filing UCC documents, you claim ownership over the property, which is your strawman.

One can actually redeem your birth certificate if the right forms are filed to claim ownership to the trust account linked to the strawman. This is a good primer on the redemption process of the birth certificate.

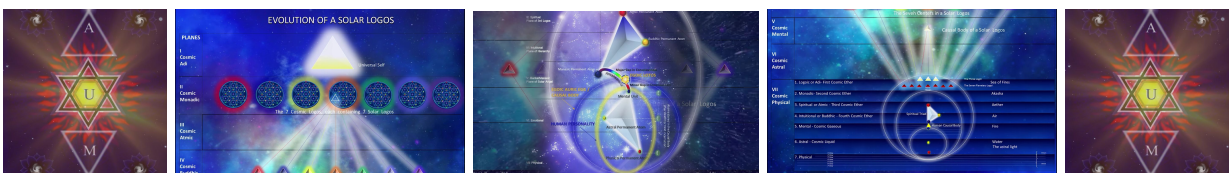
Below is something that many overlook. When it comes to the legal fiction of the strawman name, it's a good rule of thumb to claim the name of your strawman through the county and the state in which you call home.

For instance, at the county level, you would file a fictitious business statement as a DBA filing, claiming ownership over the strawman. You want to make sure you claim the exact name in all CAPS like it appears on all government documentation. This will demonstrate you are trying to reclaim title to the trust; at least the business name the government created on your behalf. You can also go as far as registered the business as a trade name as well, so you control the trademark of your strawman.

As for state filings, you would do the same thing, but would file with the state as an LLC (Articles of Organization), or a C/S Corp (Articles of Incorporation) in the name of the strawman in all CAPS as it appears on all government documentation. In lieu of the fictitious business statement (DBA), this will put on record you are reclaiming title to the trust as the business name. You can also file a state or federal trademark of your strawman. This will help control the legal fiction of your strawman.



*** Note:** Remember, only a legal fiction can do business with a legal fiction. By registering another legal fiction in the name of the strawman, you inform the government, another legal fiction that you are claiming ownership of your strawman entity.

TREASURY DIRECT: The Birth Certificate

This is where we start to examine the strawman; "*The Birth Certificate*", and how we are valued by the government and our economy. Although the birth certificate is potentially worth several billions altogether, the savings bond that was purchased by the U.S. Treasury department from the Department of Commerce at the time of your birth provides a good starting point. Below, you will be able to see the face value of the bond, and how to access the worth of the savings bond that was initially secured against your strawman.

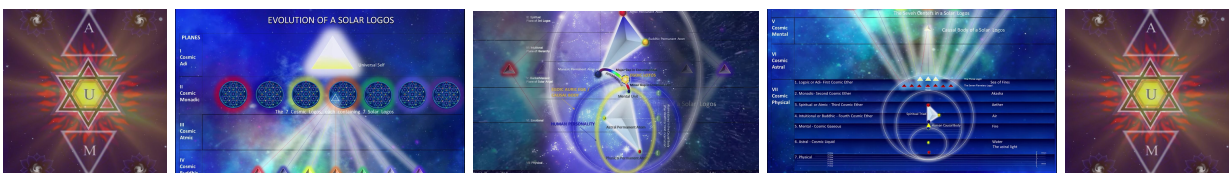
("Birth" Certificates are issued to us by the Doc. just as ships are given "berth" Certificates at the Dock. It's about commerce. We come from our mothers waters. Your mother has a birth canal just like a ship. The ship moves by the sea current just as we are able to move by the currency).

As I demonstrated in our meeting, you can calculate how much each of your birth certificate savings bond is worth.The link below will get you to where you input your information from your birth certificate to see the current value and interest on your 30/40-year savings bond held by the U.S. Treasury.

https://www.treasurydirect.gov/BC/SBCPrice

This link is the savings bond calculator, allowing you to calculate your bonded birth certificate's interest and value. Under Series, you select **E Bonds**, Denomination should be **$10,000**, **Bond Serial Number** is the 6-digit red or black number on the lower left of your birth certificate (top left for certificate of birth), and the **Issue Date** is the date the certificate was filed with your state.

Once you enter this information as instructed above, you will see the **Final Maturity Date**, which is typically 30-40 years after the **Issue date**, the **Issue Price**, **Total Interest**, and **Value**. This is what your bond is worth today. Now that you have this



information, you need to register for a Treasury Direct Account to claim, convert, and redeem the bond to your bank account.

OPENING A TREASURY DIRECT ACCOUNT

To open an account at Treasury Direct, go to https://www.treasurydirect.gov/indiv/myaccount/myaccount_treasurydirect.htm. You will select the Account Type Individual Account. You will need your social security number, date of birth, postal address, e-mail, phone, and your bank account info. Once you fill this out, you will be sent a confirmation e-mail from the Treasury Department with your account number to log in to your account.

If we send an Ecclesiastical Deed Poll (see: http://one-heaven.org/canons_positive_law/article_1330.htm), as response to a summons or arrest warrant, then the judge who issues them has to think long and hard: “Am I willing to gamble that the man who walks into my court might call me on my role of trustee and expose the fraud that the CQV Trusts are still in place?

History of Trusts

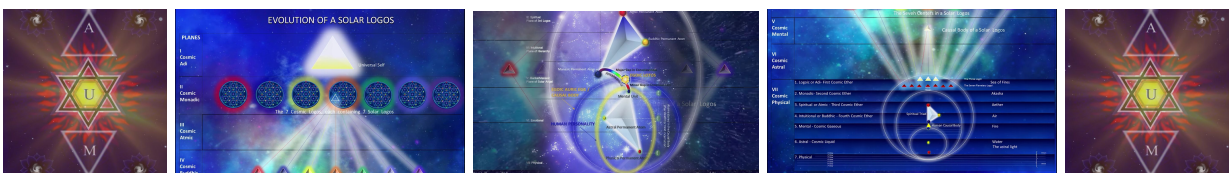
http://one-heaven.org/home.asp

The 1st Trust of the world

Unam Sanctam is one of the most frightening documents of history and the one most quoted as the primary document of the popes claiming their global power. It is an express trust deed. The last line reads: “Furthermore, we declare, we proclaim, we define that it is absolutely necessary for salvation that every human creature be subject to the Roman Pontiff.” It is not only the first trust deed in history but also the largest trust ever conceived, as it claims the whole planet and everything on it, conveyed in trust.

Triple Crown of Ba’al, aka the Papal Tiara and Triregnum

In 1302 Pope Boniface issued his infamous Papal Bull Unam Sanctam––the first Express Trust. He claimed control over the whole planet which made him “King of the world”. In celebration, he commissioned a gold-plated headdress in the shape of a



pinecone, with an elaborate crown at its base. The pinecone is an ancient symbol of fertility and one traditionally associated with Ba'al as well as the Cult of Cybele. It also represents the pineal gland in the centre of our brains––crystalline in nature–– which allows us access to Source, hence, the 13-foot tall pinecone in Vatican Square. Think about why the Pontiffs would idolize a pinecone. See: Pharmacratic Inquisition:

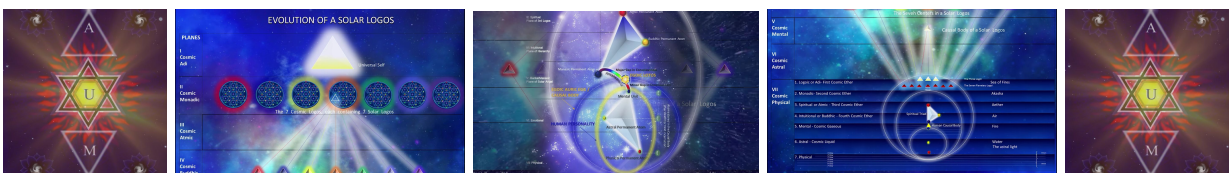
The 1st Crown of Crown Land

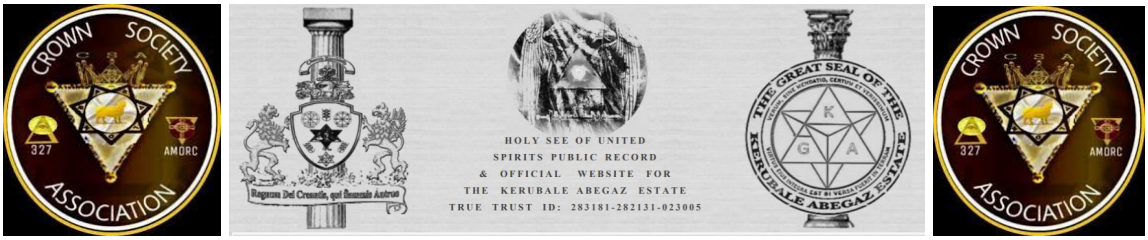
Pope Boniface VIII was the first leader in history to create the concept of a Trust, but the first Testamentary Trust, through a deed and will creating a Deceased Estate, was created by Pope Nicholas V in 1455, through the Papal Bull Romanus Pontifex. This is only one of three (3) papal bulls to include the line with the incipit "For a perpetual remembrance." This Bull had the effect of conveying the right of use of the land as Real Property, from the Express Trust Unam Sanctam, to the control of the Pontiff and his successors in perpetuity. Hence, all land is claimed as "crown land". This 1st Crown is represented by the 1st Cestui Que Vie Trust, created when a child is born. It deprives us of all beneficial entitlements and rights on the land.

The 2nd Crown of the Commonwealth

The second Crown was created in 1481 with the papal bull Aeterni Regis, meaning "Eternal Crown", by Sixtus IV, being only the 2nd of three papal bulls as deeds of testamentary trusts.

This Papal Bull created the "Crown of Aragon", later known as the Crown of Spain, and is the highest sovereign and highest steward of all Roman Slaves subject to the rule of the Roman Pontiff. Spain lost the crown in 1604 when it was granted to King James I of England by Pope Paul V after the successful passage of the "Union of Crowns", or Commonwealth, in 1605 after the false flag operation of the Gunpowder Plot. The Crown was finally lost by England in 1975, when it was returned to Spain and King Carlos I, where it remains to this day. This 2nd Crown is represented by the 2nd cestui Que Vie Trust, created when a child is born and, by the sale of the birth certificate as a Bond to the private central bank of the nation, depriving us of ownership of our flesh and condemning us to perpetual servitude, as a Roman person, or slave.





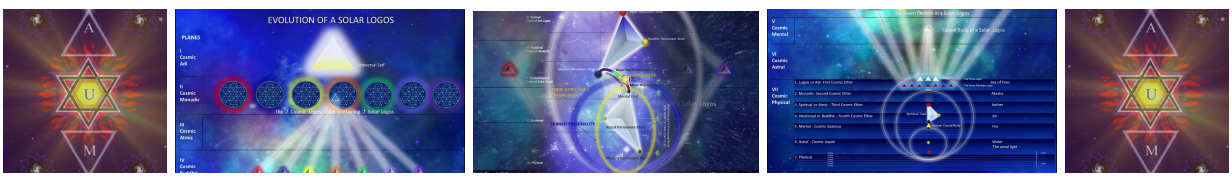
The 3rd Crown of the Ecclesiastical See

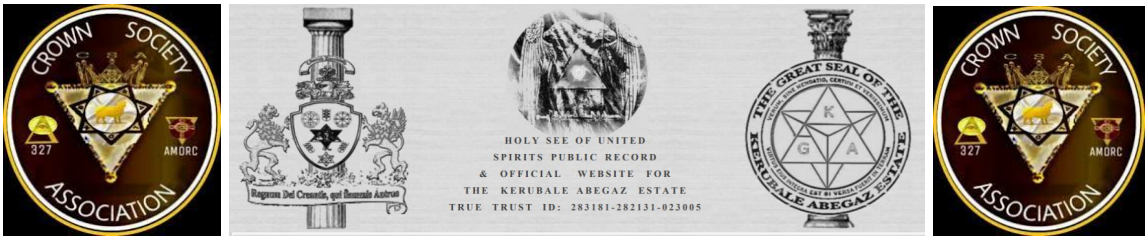
The third Crown was created in 1537 by Paul III, through the papal bull Convocation, also meant to open the Council of Trent. It is the third and final testamentary deed and will of a testamentary trust, set up for the claiming of all “lost souls”, lost to the See. The Venetians assisted in the creation of the 1st Cestui Que Vie Act of 1540, to use this papal bull as the basis of Ecclesiastical authority of Henry VIII. This Crown was secretly granted to England in the collection and “reaping” of lost souls. The Crown was lost in 1816, due to the deliberate bankruptcy of England, and granted to the Temple Bar which became known as the Crown Bar, or simply the Crown. The Bar Associations have since been responsible for administering the “reaping” of the souls of the lost and damned, including the registration and collection of Baptismal certificates representing the souls collected by the Vatican and stored in its vaults.

This 3rd Crown is represented by the 3rd Cestui Que Vie Trust, created when a child is baptized. It is the parents’ grant of the Baptismal certificate––title to the soul––to the church or Registrar. Thus, without legal title over one’s own soul, we will be denied legal standing and will be treated as things––cargo without souls––upon which the BAR is now legally able to enforce Maritime law.

The Cestui Que Vie Trust

A Cestui Que Vie Trust is a fictional concept. It is a Temporary Testamentary Trust, first created during the reign of Henry VIII of England through the Cestui Que Vie Act of 1540 and updated by Charles II, through the CQV Act of 1666, wherein an Estate may be effected for the Benefit of a Person presumed lost or abandoned at “sea” and therefore assumed “dead” after seven (7) years. Additional presumptions, by which such a Trust may be formed, were added in later statutes to include bankrupts, minors, incompetents, mortgages, and private companies. The original purpose of a CQV Trust was to form a temporary Estate for the benefit of another because some event, state of affairs, or condition prevented them from claiming their status as living, competent, and present, before a competent authority. Therefore, any claims, history, statutes, or arguments that deviate in terms of the origin and function of a CQV Trust, as pronounced by these canons, is false and automatically null and void.





A Beneficiary under Estate may be either a Beneficiary or a CQV Trust. When a Beneficiary loses direct benefit of any Property of the higher Estate placed in a CQV Trust on his behalf, he do not “own” the CQV Trust; he is only the beneficiary of what the Trustees of the CQV Trust choose to provide. As all CQV Trusts are created on presumption, based upon original purpose and function, such a Trust cannot be created if these presumptions can be proven not to exist.

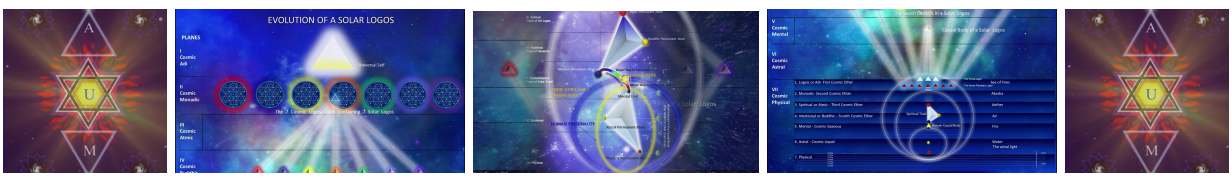
Since 1933, when a child is borne in a State (Estate) under inferior Roman law, three (3) Cestui Que (Vie) Trusts are created upon certain presumptions specifically designed to deny, forever, the child any rights of Real Property, any Rights to be free, and any Rights to be known as man or woman, rather than a creature or animal, by claiming and possessing their Soul or Spirit.

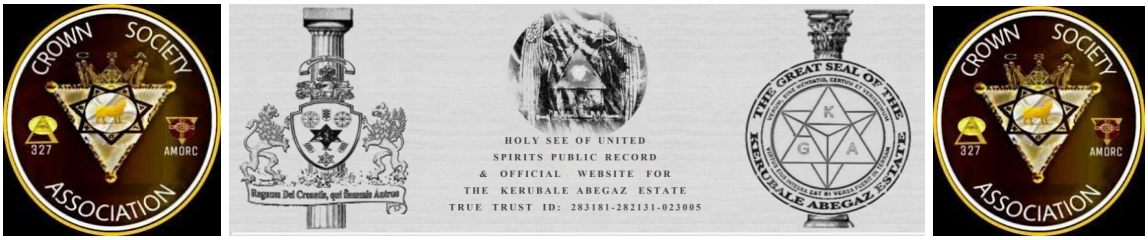
The Executors or Administrators of the higher Estate willingly and knowingly:

1. convey the beneficial entitlements of the child, as Beneficiary, into the 1st Cestui Que (Vie) Trust in the form of a Registry Number by registering the Name, thereby also creating the Corporate Person and denying the child any rights to Real Property; and,

2. claim the baby as chattel to the Estate. The slave baby contract is then created by honoring the ancient tradition of either having the ink impression of the baby’s feet onto the live birth record, or a drop of its blood, as well as tricking the parents to signing the baby away through the deceitful legal meanings on the live birth record which is a promissory note, converted into a slave bond, sold to the private reserve bank of the estate, and then conveyed into a 2nd and separate CQV Trust, per child, owned by the bank. When the promissory note reaches maturity and the bank is unable to “seize” the slave child, a maritime lien is lawfully issued to “salvage” the lost property and is monetized as currency issued in series against the CQV Trust.

3. claim the child’s soul via the Baptismal Certificate. Since 1540 and the creation of the 1st CQV Act, deriving its power from the Papal Bull of Roman Cult leader Pope Paul III, 1540, when a child is baptized and a Baptismal Certificate is issued, the parents have gifted, granted, and conveyed the soul of the baby to a “3rd” CQV Trust owned by Roman Cult, which has held this valuable property in its vaults ever since. Since 1815, this 3rd Crown of the Roman Cult and 3rd CQV Trust representing Ecclesiastical





Property has been managed by the BAR as the reconstituted “Galla” responsible, as Grim Reapers, for reaping the souls.

Each Cestui Que Vie Trust, created since 1933, represents one of the 3 Crowns representing the three claims of property of the Roman Cult: Real Property (on Earth), Personal Property (body), and Ecclesiastical Property (soul). Each corresponds exactly to the three forms of law available to the Galla of the BAR Courts: corporate commercial law (judge is the ‘landlord’), maritime and canon law (judge is the banker), and Talmudic law (judge is the priest).

What is the real power of a court ‘judge’?

Given what has been revealed about the foundations of Roman Law, what is the real hidden power of a judge when we face court? Is it their superior knowledge of process and procedure or of magic? Or is it something simpler and far more obvious?

It is unfortunate that much of the excitement about Estates and Executors has deliberately not revealed that an Estate, by definition, has to belong to a Trust––to be specific, a Testamentary Trust or CQV Trust. When we receive legal paper or have to appear in court, it is these same CQV Trusts which have our rights converted into the property contained within them. Instead of being the Trustee, or the Executor, or Administrator, we are merely the Beneficiary of each CQV Trust, granted only beneficial and equitable use of certain property, never legal title. So if the Roman Legal System assumes we are merely the beneficiary of these CQV Trusts, when we go to court, who represents the Trustee and Office of Executor? We all know that all cases are based upon the judge’s discretion which often defies procedures, statutes, and maxims of law. Well, they are doing what any Trustee or Executor, administering a trust in the presence of the beneficiary, can do under Roman Law and all the statutes, maxims, and procedures are really for show because under the principles of Trust Law, as first formed by the Roman Cult, a Trustee has a wide latitude, including the ability to correct any procedural mistakes, by obtaining the implied or tacit consent of the beneficiary, to obviate any mistakes. The judge is the real and legal Name. The judge is the trust, itself. We are the mirror image to them––the ghost––the dead. It is high sorcery, trickery, and subterfuge that has remained “legal” for far too long. Spread the word.
